About AIS

The Anti Influencer Scam (AIS) project is a community-driven initiative created to combat fraudulent practices in the cryptocurrency world. Our mission is to protect investors, provide education, and establish a transparent trading ecosystem.

Tokenomics

- Token Symbol: AIS
- Total Supply: 1,000,000 AIS
- Developer Team Allocation: 51% of total tokens
- Public Allocation: 49% available for public purchase
- Blockchain: Built on Solana for fast, secure, and efficient transactions.

Objectives

1. To educate the crypto community about the dangers of "influencer scams."
2. To provide a pathway for victims to recover losses through strategic AIS investments.
3. To establish an ecosystem that prioritizes trust and transparency.

Roadmap

1. **Phase 1**: Development and Token Creation

- Complete AIS token creation and smart contract deployment.
- Launch the official website: antiinfluencerscam.com.
- Build an active community on social media platforms, including X.com.

2. **Phase 2**: Initial Token Distribution

- Public sale of 49% AIS tokens.
- Launch marketing campaigns to spread awareness.

3. **Phase 3**: Ecosystem Expansion

- Partnerships with anti-fraud organizations.
- Development of educational tools for crypto investors.

Team

The AIS developer team comprises professionals dedicated to fighting fraud and fostering transparency in the cryptocurrency sector.
